ON THE COMMITTEES.

Places Drawn by Some Ohio Members of the House.

ONLY A SHORT SESSION TUESDAY.

Appointment of Attorney General Knox Considered by the Senate in Executive Session—Holiday recess—Congressional Doings.

Washington, Dec. 10.—There was a very large attendance on the floor of the house Tuesday in anticipation of the announcement of committees by the speaker.

Mr. Richardson (Tenn.), leader of the minority, offered a resolution to place upon the house payroll the special employees usually allowed the minority. The resolution was adopted without division.

Mr. Hemenway (Ind.), chairman of the special committee to consider and report a bill to fix salaries of officers and employees of the house, submitted the report of his committee.

Speaker Henderson announced standing committees in addition to those heretofore announced. Among them Ohio members drew the following places on the more important committees: Tompkins, interstate and foreign commerce; Nevin, judiciary; Gill, banking and currency; Burton, chairman rivers and harbors; Grosvenor, chairman merchant marine and fisheries; Dick, member of military affairs; Shattuck, chairman immigration and naturalization, with Skiles on same committee; Gordon, agriculture; Beidler, foreign affairs; Bromwell, post-roads and post roads.

The house adopted a resolution providing for a holiday adjournment from Dec. 19 to Jan. 6.

At 1:55 p. m. the house adjourned till Friday.

In the Senate.

The senate, after routine business, upon motion of Mr. Lodge, at 12:45 o'clock went into executive session.

After the senate went into executive session Senator Hoar presented the report of the committee on judiciary recommending the confirmation of Attorney General Knox. He made a brief statement, referring to the protests against confirmation as made by the Anti-Trust league, but said that after giving careful attention to this representation the committee had decided to recommend confirmation.

No opposition was voiced, but action on the nomination was postponed by common consent. The senate then, before taking up the Isthmian canal treaty, proceeded to pass upon other nominations, of which there are an exceptionally large number before the senate.

Senator Lodge spoke in favor of the canal treaty, saying all objectionable features of the last treaty had been removed; that the Clayton-Bulwer treaty, standing so long in the way of

a canal, had been removed; that the change in article 1 was of material importance. He said the concessions were ample for the interests of the United States.

At 1:55 p. m. the senate adjourned for the day.

The adjournment without further consideration was in order to give the Democratic caucus committee an opportunity to consider the treaty.

Some Senate Bills.

Senator Hoar has introduced a bill giving United States courts jurisdiction in cases of lynching, and providing the death penalty for participation in lynchings. Mr. Hoar's bill authorizing the president to correspond with other Christian nations for the suppression of anarchy provides that an island be procured to which anarchists and their followers can be banished.

Senator Hale introduced a number of bills relating to the navy, among them being bills to enable naval court-martial and naval courts of inquiry to compel the attendance of civilian witnesses; to equalize the pay of officers of the navy with those of corresponding ranks in the army and marine corps; to authorize the commandants of naval stations beyond continental limits of the United States to convene general courts-martial for the trial of offenders under their command, and to authorize an increase of the enlisted force of the marine corps.

Other bills introduced are the following: By Mr. Hoar, Senator Thurston's bill of last session defining conspiracy in restraint of trade; by Mr. Gamble, to establish mining experiment stations to aid the development of mineral resources of the United States; by Mr. Warren, granting 160 acres of land each for the use of the plants of industrial institutions located on the public domain; by Mr. Money, appropriating \$15,000 annually from the sale of public lands to support an institution for the industrial education of women; by Mr. Perkins, to prohibit Chinese immigration; by Mr. Teller, authorizing the construction of a railroad across Alaska by the Trans-Alaskan Railroad company and granting each alternate section of public land along the line of the proposed road; by Mr. Mason, providing a code of land laws for the territory of Hawaii, classifying the salaries of postoffice clerks and fixing an eight-hour day for postoffice employees.

Preliminary Agreement.

Washington, Dec. 10.—The arrangement entered into at Managua Monday between United States Minister Merry and the minister of foreign affairs of Nicaragua were in the nature of a protocol, and was not, strictly speaking, a treaty. It is in effect a definition, in advance, of the character of treaty that Nicaragua is willing to enter into with the United States in the event that the Hay-Pauncefote treaty is ratified by the United States and Great Britain. There are supposed to be legal reasons why a treaty, pure and simple, could not be entered into between the United States and Nicaragua in advance of the consummation of the Hay Pauncefote treaty. A similar arrangement has been or will be made with the government of Costa Rica to secure the necessary rights on that part of San Juan river essential for canal purposes, and possibly subject to Costa Rican sovereignty.

Why Hackett Resigned.

Washington, Dec. 10.—The president has accepted the resignation of Frank W. Hackett as assistant secretary of the navy, to take effect next Monday, when his successor, Charles H. Darling of Vermont, who is expected here in a day or two, will relieve him of his official duties. In the correspondence that took place between Secretary Long and Mr. Hackett the latter explained he was compelled to give up his office and return to his law practice, and Secretary Long expressed regret that this was necessary.

Philippine Tariff Bill.

Washington, Dec. 10.—The Republican members of the ways and means committee agreed upon a Philippine tariff measure, and later the entire membership of the committee, Democrats and Republicans, was called together for the first time. The Democratic members were informed of the program regarding the bill, which includes reporting it Friday and passing it, after one day's debate, Saturday, under a special rule. The provisions of the bill are practically as heretofore published.

Will Appeal to Congress.

Washington, Dec. 10.—The William McKinley Memorial Arch association has determined to change its plan of operation so as to appeal to congress instead of to the public for the erection of the proposed McKinley memorial in Washington. The association will be reincorporated and contributions received by the association for the proposed memorial arch will be returned.

Three Oaks, Mich., Dec. 10.—Fire destroyed the millinery store of E. H. Cross, the general merchandise store of Reita Hollett, and a furniture building adjoining. Loss \$50,000; one-half covered by insurance.

IN FAVOR OF SCALPING

A. F. L. Convention Wants Congress to Let Scalpers Alone.

SAY THEIR BUSINESS IS LEGITIMATE.

Delegate Who Opposed the Resolution Declared Many Scalpers Are Criminals—More Resolutions Offered. Per-Capita Tax Raised.

Scranton, Pa., Dec. 10.—The first business to come before the convention of the American Federation of Labor Tuesday was the introduction of additional resolutions, for which consent was necessary. First Vice President Duncan of Boston protested against the presentation of resolutions at this time, as they could easily have been presented Saturday, when the constitutional time limit expired. The resolutions dealt with the piano makers' able, several boycotts, and the agreement between the piano makers and the wood workers regarding their jurisdiction.

The committee having charge of the secretary's report recommended that the suggestions made in that report be accepted, with the exception of that part referring to the per capita tax of national and international unions. The committee recommended that the tax be increased from one-third to one-half of one per cent per month. The recommendations were adopted.

The committee on resolutions presented voluminous reports. Among the resolutions was one asking all resolutions to give the status from the jurisdiction over which they claim to administer authority. This brought up the question of autonomy, and First Vice President Duncan made the important announcement that he will ask for the appointment of a special committee to consider the whole question of autonomy. This announcement had the effect of killing the resolution, there being no opposition to the motion to adopt the recommendation of the committee.

The resolution pledging the American Federation of Labor to use every honorable means to prevent the passage by congress of anti-scalping legislation was favorably reported by the committee. State Senator Tanqueray of Colorado, a member of the Railroad Telegraphers' union and John B. Lennon of Bloomingdale, Ills., of the Journeyman Tailors' union vigorously opposed the resolution. Senator Tanqueray declared the federation was going outside of its legitimate field in considering such a resolution, and the organization was treading on dangerous ground. Mr. Lennon said many of the ticket scalpers were criminals, and told of a case where 45,000 tickets had been forged on one railroad and sold by scalpers.

Lee Hart of Chicago, of the Theatrical Stage Employees' National Alliance, and E. A. Agard, mayor of Fairbury, Ills., who represents the glass-bottle blowers, led the forces in favor of the resolution. They maintained that ticket scalping was a legitimate business, and was the means of cheapening travel.

The discussion was continued by W. J. Croke of Marion, Ind., of the Flint-Glass Blowers, C. O. Sherman of the Chicago Metal Workers, and Eugene O'Rourke of the New York Typographical union, who favored the resolution; Sheldon A. Harris of Dwight, Ills., a Congregational minister and a member of the Federal union, and Dennis Hayes of Philadelphia, of the Glass-Bottle Blowers, opposed it. The previous question was moved, after Mr. Lennon had made a motion to lay the resolution on the table, which was lost. The resolution was then adopted by an overwhelming *viva voce* vote. The three delegates representing the Railroad Telegraphers went on record as being opposed to the resolution.

The special committee on Chinese exclusion made its report, recommending the passage of laws excluding Chinese, Japanese and all other Asiatic races. The committee was in unit on Chinese exclusion, but divided on the Japanese and other Asiatic races. The report was divided into two parts, and the Chinese exclusion was taken up for discussion. It was adopted unanimously. The Japanese section was laid on the table.

Rough Voyage.

Port Townsend, Wash., Dec. 10.—The schooner Ralph Long, Captain Green, 47 days from Cape Nome, with 90 passengers and 15 stowaways, has arrived here, and, according to passengers, she had the most eventful voyage of any vessel sailing from the north. She sailed from Nome, Oct. 23, with provisions enough to last her to Dutch Harbor under favorable circumstances. Before reaching that port the water supply gave out, and for two days passengers were without water. After sailing from Dutch Harbor the vessel experienced continual gales of unusual severity, the most severe being Nov. 11, when seas swept the vessel from stem to stern, carrying away

a portion of the water supply and one lifeboat. Mal Hanson was washed overboard by an immense sea and drowned. The last two weeks of the trip the passengers had to depend on what rain they could catch for a supply of water.

BOERS CAME NEAR BAGGING THEM.

Timely Arrival of Reinforcements all That Saved Kitchener's Scouts From Capture—Kitchener's Reports Show There Is Still War.

London, Dec. 10.—Dewet is reported to be close to Heilbronn with 2,000 men, and to have come very near surrounding Kitchener's fighting scouts under Colonel Wilson. Colonel Remington, by making a night march of 30 miles, relieved Wilson, and both columns retired from Heilbronn, with a few losses to the united commands.

SENATOR HOAR's plan for disposing of anarchists is a good one. He wants civilized governments to purchase an island in the Pacific ocean, and deport all anarchists to this island, to enjoy the islands to themselves. They could pass the time then in carving, shooting or poisoning each other.

MONDAY, the widow of the late Millionaire Stanford gave Stanford University, San Francisco, \$30,000,000, real estate, stocks and bonds—the largest single gift ever bestowed on any institution of learning. Mrs. Stanford retained property worth several millions, so that she will be able to keep the wolf from her doors.

THE American Federation of Labor this week adopted a resolution denouncing child labor. Unquestionably a law should be passed in every State to prevent the working of little children in factories. Lazy and shiftless parents who force their children to do such work should be severely punished. In too many cases little ones are thus employed when they should be in the schools.

UNCLE SAM is paying out over \$3,000,000 a year in salaries to officials in the Philippines. Our new possessions seem to be regular bonanzas—for the office-holders. A Republican member of Congress, who has just returned from the Philippines, brought back a copy of the civilian pay-roll at Manila. He insists that it shows great extravagance on the part of this government, and that Congress should act in the matter.

With the changes suggested, and with partisan politics pushed to the rear and business principles brought to the front, Kentucky will soon become a hive of industry instead of being shunned by capitalists as she is now.—Public Ledger.

Well suppose the Republicans make a start at pushing partisan politics to the rear. The recent experience of some of them in Maysville in trying to bring partisan politics to the front has no doubt taught them a good lesson.

KENTUCKY CRIMINALS.

Jefferson County Leads in Number Sent Up
Last Year—Fayette Comes Second.
Few Paroles.

FRANKFORT, Ky., December 9.—Clerk Stone, of the penitentiary, has turned over to the Prison Commissioners his report for the year. The daily average number of prisoners during the year was 1,235. Jefferson led all other counties in number of prisoners sent up during the year, having 260. Fayette came next, with 119, Madison is third, with thirty-five.

A unique feature is that Kenton and Campbell counties, with a population ranking up next to these, send only a few convicts each year, which may be accounted for by the fact that criminals in those counties go to Cincinnati to do their work, and if they get into trouble it is with the Ohio laws that they have to deal.

Neither Governor Beckham nor the State Parole Board seem to have worked overtime, only thirty-seven pardons and thirty-eight paroles being recorded during the twelve months.

STATE DEFRAUDED.

Charged That Crooked Work is Being Done
in Some Mountain Counties in
Witness Claims.

State Auditor Coulter has received information that frauds in witness claims against the State are being perpetrated in Bell County and one or two adjoining counties, and will have the matter fully investigated.

It is said that a number of witnesses for the defense in felony cases have been allowed pay and mileage, which is contrary to law. Witness claim frauds have been persistently perpetrated in Eastern Kentucky for many years, and all efforts of the lawmakers to eradicate the evil have proved ineffective.

It is a matter of record in one of the mountain counties that a sham trial of a dog for murder was held and several hundred dollars in witness fees were allowed and actually paid by the State before the fraud was discovered.

BRADLEY AND YERKES.

The Ex-Governor Still After the Danville
Man—The Republican Row
Grows Hotter.

LOUISVILLE, Ky., Dec. 6.—In an interview given to-day ex-Gov. Bradley took occasion to emphasize his recent utterances about Internal Revenue Commissioner Yerkes.

"John Yerkes," said he, "has attained such an altitude that a man of ordinary standing cannot reach him. He reminds me of Pinkerton's pup. Pinkerton's pup had a curl in her tail, and when she discovered it she grew proud, so proud, in fact, that she screwed up her tail so tight her hind legs couldn't reach the ground."

The ex-Governor looked like he meant it, too. He declares that there can be no doubt that his friend Collier will become Surveyor of the Port at Louisville. As to his fight on Sam Roberts Mr. Bradley remained silent. He went so far as to profess ignorance of the aspirations of Major Wood in connection with the Lexington Collectorship, but took occasion to say a few friendly words for the Mt. Sterling man, who may yet gain his influence, if he wants in.

IMPORTANT POINT.

Involved in a Suit Now Pending in the
Court of Appeals.

FRANKFORT, Ky., December 5.—A suit of vital importance to all the old gas and light companies was filed here to-day by the People's Electric Light and Power Company vs. The Capital Gas and Electric Light Company, both of this city. The decision involves the proper construction of Section 164 of the Constitution, relating to the sale and letting of franchises by cities and counties.

The People's Electric Light and Power Company purchased at public sale, as required by the Constitution, the right to furnish electric lights and power for the city of Frankfort for twenty years, and claims that such purchase under the Constitution gives it the exclusive right in the matter against corporations that operate under private contract with the city or under mere consent of the City Council.

Almost every telephone, telegraph, electric light, street railway, water and heating company doing business in Kentucky will be affected by the decision in this case.

Prayer meeting at the Central Presbyterian Church at the usual hour. The public invited.

Mr. George H. Traxel, the plumber, has been granted a patent for a safety attachment for water backs.

George H. C. Stoney, of Germantown, has been called by the Flemingsburg Christian Church, and will enter upon his ministry there the first of January.

Dogs have been playing havoc with sheep in Montgomery County, and farmers are up in arms. Within the past month over 100 sheep have been killed and crippled.

The Goebel Reward Commission has been called to meet December 19th for the purpose of considering claims presented by detectives for the conviction of Henry Youtsey.

Charles Ramsey, James Washington and Bud Jordan, convicted at the present term of the Circuit Court and given terms in the penitentiary, were sentenced Tuesday by Judge Harbison. Ramsey goes up for eighteen years, Washington for two years and Jordan for one year.

"Take care of the pennies and the pounds will take care of themselves."

Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make.

Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things?

That is why, someday, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the result of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity.

It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities

and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs.
